

Circular: Important Circular: Student Safety and Well-being

TMPIS/2026-27/014

Date: 04 July 2026

Dear Parents,

Greetings from T M Patel International School!

At T. M. Patel International School, we firmly believe that the safety and well-being of every child are our highest priorities. Every decision we make is guided by our commitment to ensuring a safe, secure, and nurturing environment for all our students. We seek your continued support in reinforcing the following important aspects:

Safety during Heavy Rainfall

With the monsoon season in progress, we request parents to exercise their discretion regarding their child's safety while travelling to school.

- If your area is experiencing heavy rainfall, waterlogging, flooding, or any situation that may pose a risk, **we request you to assess the local conditions and take an appropriate decision keeping your child's safety as the highest priority.**
- Please be assured that **the school will immediately communicate any official weather alerts or instructions received from the District Education Office (DEO).**
- In case the situation worsens, the school management will take an appropriate decision regarding school operations and communicate the same promptly.

The safety of our students is never compromised, and every decision will always be taken with their well-being as the foremost priority.

Responsible Use of Mobile Phones

We have observed a growing concern regarding excessive mobile phone usage among students. Extended screen time, frequent chatting, and unrestricted access to social media can adversely affect children's studies, concentration, behaviour, and overall development.

We request parents to:

- Monitor your child's mobile phone usage regularly.
- Set reasonable screen-time limits.
- Encourage meaningful conversations and productive offline activities.
- Ensure that phones are used primarily for educational purposes whenever required.

Your guidance at home plays a vital role in helping children develop healthy digital habits.

Appropriate Language and Behaviour

As part of our continuous efforts to nurture a respectful and positive school environment, we would like to draw your attention to an important aspect of students' communication and behaviour. We have observed that some students are increasingly using inappropriate words, slang, and disrespectful expressions. Such language can create an uncomfortable environment for classmates and does not reflect the values we strive to instil in our learners.

While the school continuously counsels students about respectful communication, we sincerely request parents to partner with us by:

- Encouraging polite and respectful language at home.
- Being aware of your child's peer group and social interactions. Observing any sudden changes in behaviour, expressions, or vocabulary.
- Guiding children to understand that words have a lasting impact on others and that mutual respect is essential both inside and outside the classroom.
- Kindly keep the school informed if you notice any significant changes in your child's language, behaviour, or social interactions. Early communication enables us to work together and provide timely guidance and support whenever required.

Children often learn from the company they keep and the environments they are exposed to. Consistent guidance from both home and school helps them develop into responsible, respectful, and compassionate individuals. Together, let us continue to provide our children with a safe, positive, and value-based environment where they can grow with confidence and character.

Thank you for your continued trust, support, and cooperation.

Warm regards,
Mr K Maxwell Manohar
Director/Principal
T. M. Patel International School
